

8.5" x 8.5" Charlie Lyon product booklet

The Inspiration

GLIDE. MINGLE. BLOSSOM.

A triptych painting, *Glide Mingle Blossom* is made up of three separate canvases that flow together into a single story of animals, natural elements and the rhythm of Maui's active ocean lifestyle.

In *Glide*, Niuki (tiger sharks) swim in breaking waves while Iwa (frigate birds) effortlessly ride the air currents above.

In *Mingle*, Iwa and Honu face off, navigating the currents of air and water. Images from *Glide* and *Blossom* unite, merging land and sea just as the island of Maui once emerged from the deep.

In *Blossom*, Honu (sea turtles) lift their heads to inhale plumeria-scented breezes as Pinao (dragonflies) swirl through falling flowers.

Throughout, pulsing waves flow continuously. Niu (coconut palms) stand strong despite the winds, and lele of ti leaf and flowers signify admiration, appreciation, respect and the love given with Aloha.

*The spirit of the islands,
brought to life in three new frames.*

STYLE: RHYTHM 790-98

THE FINE ART OF TECHNOLOGY.

How do you create sunglasses that are truly works of art? At Maui Jim, we do it by combining these museum-quality frames with our patented PolarizedPlus2® lens technology. The most advanced sun protection available shields your eyes from intense glare and harmful UV rays, improves contrast and enhances visual acuity—all while letting the islands' vivid colors shine through. Brilliant.

KEY STYLE FEATURES:

Frame Features:

- **Material:** Acetate
- **Shape & Fit:**
 - 791 "Vibes" has a rectangular shape that offers unisex appeal and best fits medium-sized faces.
- **Bridge & Hinge Designs:**
 - Saddle-style fixed bridge
 - Traditional 3-barrel optical hinge

Lens Features:

- SuperThin (ST) Glass
- Absolute crispest optics available.
- 33% thinner and lighter than standard glass.
- Best available scratch and solvent resistance.

FINISHING TREATMENTS:

- PolarizedPlus2[®] lenses eliminate 99.9% of glare, manage 95% of HEV and block 100% of harmful UV while boosting color to unmatched levels.
- Optically correct, distortion-free lenses feature patented lens treatments and rare earth elements. Color and clarity are enhanced using natural light.
